

COMPANY PROFILE / 2026

Company Profile & Product Range

Over/under-voltage protectors, smart energy meters and DIN-rail protection devices — built and tested in one plant since 2013.

- Established 2013
- Zhejiang, China
- chliuyiele.com

A factory, not a trading desk

Chliuyi started in 2013 with one category: low-voltage protection devices for grids that are not stable. Thirteen years later we still make that category, and little else.

Our buyers are distributors, panel builders and EPC contractors. They re-order the same model, container after container, and they cannot afford a batch that behaves differently from the last one. That is the only reason our quality control is written down instead of promised.

Export regions

Packing line — final inspection before export carton.

What we build

Seven product lines, all DIN-rail mounted, all on the same 35 mm rail and the same QC standard.

Smart energy meters

Single- and three-phase meters, with app monitoring on the WiFi models.

Over/under-voltage protectors

1-63 A single-phase, 1-100 A three-phase, adjustable thresholds.

Time-controlled switches

DIN-rail timers with app scheduling.

Miniature circuit breakers

DIN-rail MCBs for branch circuit protection.

Soft starters

Motor starting, single- and three-phase.

Terminal blocks

Screw and spring DIN-rail terminals.

Variable frequency drives

Motor speed control for pumps and fans.

Aging rack — dozens of units energised at once.

Not sure which model fits your panel? Send the incoming supply and the load, we will size it.

How we control quality

01 SMT production line
High-speed mounting and reflow soldering for the control boards.

02 Multi-function testers
Voltage, current, on/off state and trip threshold checked against the set value.

03 Aging benches
Finished units run energised so early failures surface in the workshop, not on site.

04 Hipot & insulation
Dielectric strength and insulation resistance to the CE safety requirement.

05 Automatic packaging
Label printing and sealing for a standard export carton.

Documents we hold

- CE - Low Voltage Directive 2014/35/EU · CLZJ25120979422
- CE - EMC Directive 2014/30/EU · CEZJ25081574595
- CE - Radio Equipment Directive 2014/53/EU · M2604331XY-C0311
- RoHS 2.0 (2011/65/EU) - smart meters · M2512256XY-C0215
- RoHS 2.0 (2011/65/EU) - protectors · M2508459XY-C0543
- MID technical-file attestation · 0P260605.ZLEDN15
- SGS factory audit · QIP-ASI2532053
